FUNCTIONING OF Celyra WATER IONIZER

Chlorides

Sulphates

Nitrates

Phosphates

Calcium

Sodium

Magnesium

Celyra Water Ionizer is created through an **Advanced Electrolysis Process**, where an electric current is introduced in the water, separating it into positive and negative ions. This ionization process restructures the water at the molecular level, resulting in water that contains both positively charged ions and negatively charged ions. The separation of ions alters the water's properties, making it more alkaline and creating a solution rich in beneficial, bioavailable ions.

Electrolysis not only boosts the water's **pH** but also enables the water to carry antioxidant properties, which may help neutralize harmful free radicals in the body. As the water undergoes this transformation, it gains a higher potential for hydration and cellular absorption, as well as the potential to support metabolic functions. The result is a cleaner, more energized water that many consider optimal for daily hydration and wellness, enriched with ions that support the body's **pH** balance

RETURN TO ORIGIN

Our bodies are naturally alkaline at birth, but as we age, factors like diet, stress, and regular consumption of standard water gradually shift our internal balance towards acidity. This acidic environment can make the body more vulnerable to various health concerns. Celyra Water Ionizer works to counteract this process by providing water that is micro-clustered, antioxidant-rich, and naturally alkaline. By supporting the body's return to an optimal pH balance, Celyra Water Ionizer helps you maintain the alkaline state that promotes overall wellness and resilience against disease, revitalizing health from within.

Our bodies are composed of about 70% water, with each organ containing between 20% to 90% water, making hydration essential for optimal function. Calvura Ionized Water plays a transformative role by delivering micro-clustered, antioxidant-rich, and alkaline water that hydrates more effectively at the cellular level. This enhanced hydration supports energy levels, detoxification, and overall cellular health, helping each organ perform its best. By drinking Celyra Ionized Water, you're not just quenching thirst—you're actively supporting the balance, vitality, and long-term wellness of your entire body.

WHY Calvura

1. POWERFUL ANTI-OXIDANT

Celyra Water Ionizer offers additional electrons that help neutralize harmful free radicals in the body, supporting overall health. When freshly produced, Celyra Water Ionizer has a high negative Oxidation-Reduction Potential (ORP), giving it strong antioxidant properties. This negative ORP means that water from Celyra Water Ionizer acts as a powerful antioxidant, which may assist in reducing oxidative stress on cells and promoting wellness. By neutralizing free radicals, Celyra Water Ionizer may contribute to better cellular health and potentially slow down processes associated with aging and cellular damage. Its antioxidant-rich nature makes it a popular choice among those seeking hydration with added health benefits.

The higher the negative number the greater the potential to reduce the levels of Oxidation in the body.

HEALING IS VOLTAGE !

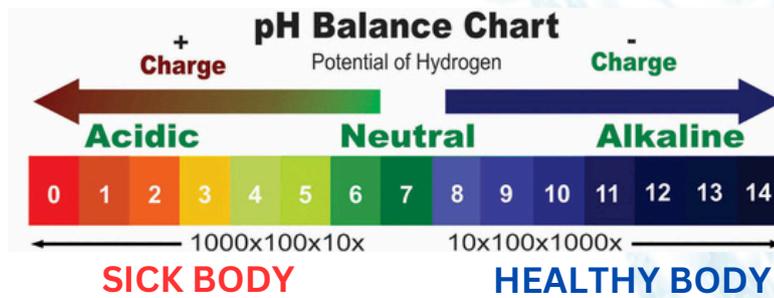

How to Recharge Your Body-Battery

Every cell in the body is designed to run at -20 to -25 millivolts. To heal, we must make new cells. To make a new cell requires -50 millivolts. Chronic disease occurs when voltage drops below -20 and/or you cannot achieve -50 millivolts to make new cells. Thus chronic disease is always defined by having low voltage. This book tells you how to measure your voltage in each organ, how to correct it, and how to determine why your voltage dropped enough to allow you to get sick. *Healing Is Voltage: The Handbook*, Jerry Tennant, MD, MD(H), PSC.D

Cell Voltage	Cell pH	Body Changes
-50	7.88	Make new cells
-45	7.79	
-40	7.70	
-35	7.61	Normal for kids
-30	7.53	
-25	7.44	Normal for adults
-20	7.35	
-15	7.26	Tired
-10	7.18	Slick
-5	7.09	
0	7.00	Cell changes polarity
+5	6.91	
+10	6.83	
+20	6.65	
-30	6.48	Cancer occurs

2. ALKALINITY

An essential feature of ionized water, such as that produced by the Celyra Water Ionizer, is its alkalinity, often measured by a higher pH level. This alkalinity may help to balance the body's pH levels, which can sometimes become acidic due to diet, stress, and environmental factors. Many proponents believe that maintaining a slightly more alkaline state in the body supports optimal cellular function and overall wellness by creating an internal environment less hospitable to certain types of ailments. This focus on alkalinity, combined with the water's negative ORP (antioxidant properties), is central to the claimed health benefits of ionized water.

Dr. OTTO HEINRICH WARBURG

Discovered the real Cause of cancer in 1923 and received the Nobel Prize for Physiology in 1931

In his work on the metabolism of ammonium he demonstrated that all forms of cancer are characterized by two basal conditions:

ACIDISIS and HYPOX+Absence of oxygen

Cancerous tissues are Acidic. Healthy tissues are Alkaline.

"Deprive a cell 35% of its oxygen for 48 hours and it may become cancerous"

	Cell pH (hydrogen)	Body Changes
No	10 000 000 x more Acidic	Strong - Lead Acid Battery
1	1.000.000 x more Acidic	Strong-Sulphuric Acid
2	100.000 x more Acidic	Strong-Acidic Chemicals
3	10.000 x more Acidic	Tea Soda, Carbonated Beve
4	1000x more Acidic	Juices, Beer Energy Drinks
5	100 x more Acidic	Coffee
6	10 x more Acidic	Bottled Waters:
6.5	4x more Acidic	Milk
7	Neutral	Tap water (Average)
7.4	3x more Alkaline	Healthy Blood
8	10x more Alkaline	Mild live water Pani
9	100 x more Alkaline	Live Water (9.0 and 9.5)
10	1,000 x more Alkaline	Milk of Magnesia
11	10,000 x more Alkaline	Ammonia
12	100,000 x more Alkaline	Bleach
13	1,000 000 x more Alkaline	Household Lye
14	10,000 000 x more Alkaline	Strong Alkaline Chemicals

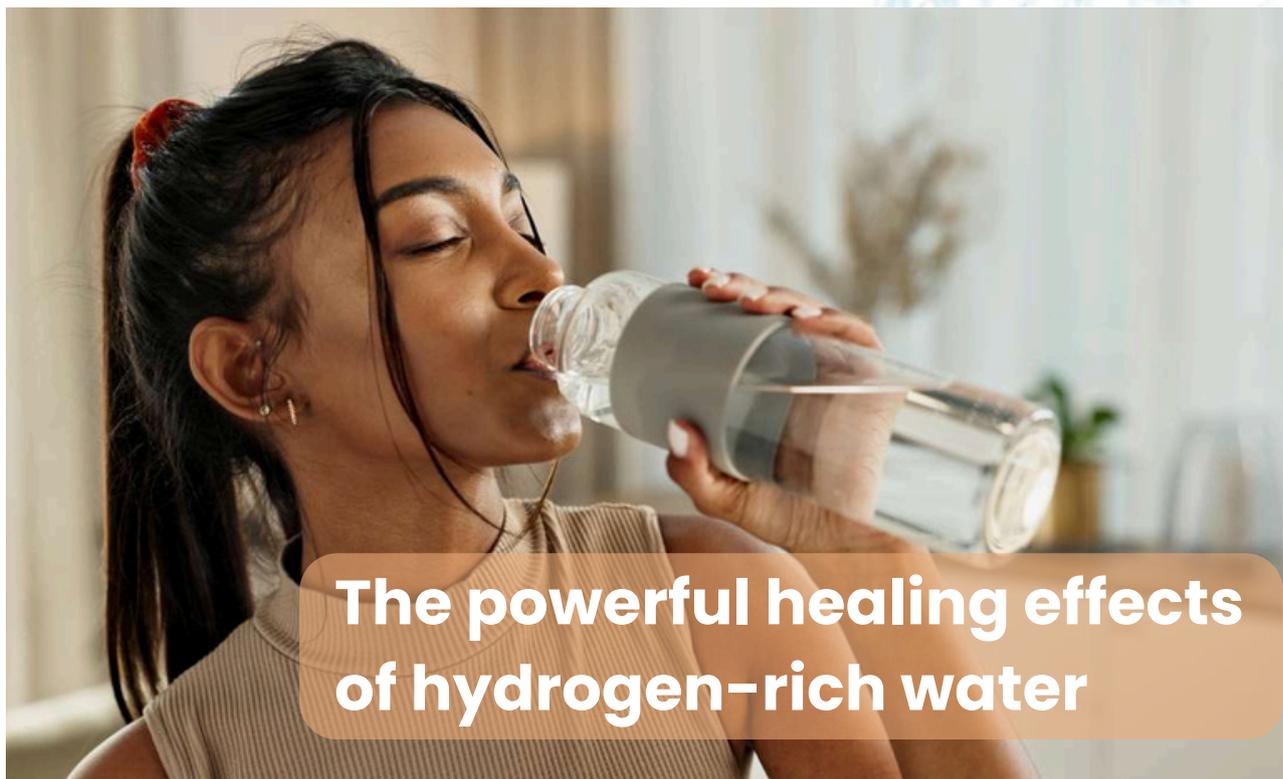

3. MICRO CLUSTERED

Ionization in Celyra Water Ionizer reduces the size of water clusters by about two-thirds, transforming them into a hexagonal structure. This unique shape closely resembles naturally occurring hexagonal water clusters, which are believed to be more easily absorbed by the body's cells. Due to their smaller, hexagonal form, these clusters may improve cellular hydration more effectively than standard water molecules, allowing them to penetrate cell membranes with greater ease. Enhanced hydration supports more efficient nutrient delivery and aids in the removal of cellular waste, contributing to overall cellular health. This process makes ionized water an appealing option for those looking to optimize hydration and support the body's natural detoxification processes.

4. HYDROGEN ENRICHED WATER

Hydrogen water contains molecules small enough to penetrate deeply into cells, supporting enhanced hydration and cellular function. One of its primary benefits is its ability to neutralize Reactive Oxygen Species (ROS), harmful compounds known to damage cells and even distort DNA. By reducing ROS, hydrogen water may help protect cells from oxidative stress and promote overall health. Additionally, hydrogen water provides dissolved minerals that further support the body's wellness, offering essential nutrients alongside its antioxidant properties. This combination makes hydrogen water a popular choice for those seeking not only effective hydration but also a boost in cellular protection and health benefits.

Celyra Water ionizer transforms water into micro-clusters, rich in antioxidants, in hydrogen, while naturally enhancing its alkalinity for optimal health benefits

VIEWS OF LEADING DOCTORS AND RESEARCHERS

On the Health Benefits of Drinking Alkaline Ionized Water

The Alkaline Connection to Health

Dr. OTTO HEINRICH WARBURG

No disease can thrive in an alkaline body. In 1923, groundbreaking research revealed the true cause of cancer, earning a Nobel Prize in Physiology in 1931. In his pivotal work, "The Metabolism of Tumours, he showed that all types of cancer share two fundamental conditions acidosis and hypoxia (oxygen deficiency) Cancerous tissues are distinctly acidic, while healthy tissues remain alkaline. It was stated that if a cell is deprived of 35% of its oxygen for 48 hours, it may become cancerous.

Author of "You're Not Sick, You're Thirsty"

Dr. Fereydoon Batmanghelidj, M.D.

Don't treat thirst with medicine, treat it with water."

Water is not just a drink – it is the foundation of health, energy, and life. Every cell, tissue, and organ in your body depends on proper hydration to function at its best. When the body lacks water, it expresses distress through pain, fatigue, and disease. Alkaline Ionized Water is a modern and natural way to restore your body's balance.

It is rich in antioxidants, negative ions, and micro-clustered molecules, which help to:

- Neutralize harmful acids and free radicals
- Improve digestion and metabolism
- Deeply hydrate and detoxify body cells
- Enhance energy, clarity, and overall wellness

By drinking alkaline ionized water daily, you empower your body's own healing power – naturally and effectively.

As **Dr. Batmanghelidj** reminded the world:

"Your body's many cries for water are often mistaken for illness. Heal your body with hydration."

The Power of Voltage in Healing

Dr. Jerry L Tennant

"Healing is Voltage: The Handbook" by Dr. Jerry L Tennant emphasizes that every cell in the human body operates optimally at -20 to -25 millivolts. For effective healing and cell regeneration, achieving -50 millivolt is critical. Chronic diseases arise when voltage dips below -20, and it becomes impossible to reach the necessary -50 millivolts to create new cells. Thus, chronic illness is fundamentally linked to low voltage levels
